

I would like to invite you to a free workshop on 'Strategic Materials - (Materials at Risk)' in the Energy and Aerospace Industries, which is being organised by 'meta4', the Metals & Alloys node of the Materials KTN on Wednesday the 6th of February at NAMTEC.

The purpose of the workshop is to explore the issues of strategic materials supply in the UK over the next 20 years.

Featuring presentations from leading industrial organisations in the energy and aerospace sectors.

Providing an opportunity to discuss the potential challenges facing your organisation.

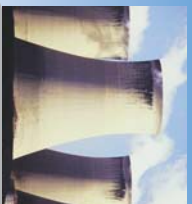

Confirm your attendance for this prestigious and unique event by returning this form by post or fax:

National Metals Technology Centre Ltd, Swinden House, Moorgate Road, Rotherham, S60 3AR, United Kingdom • **Fax: 01709 724999**
